VOLUME 50

MAY – AUGUST 1953

PUBLISHED MONTHLY BY
THE WISTAR INSTITUTE OF ANATOMY AND BIOLOGY
PHILADELPHIA, PENNSYLVANIA

W, M

# CONTENTS

## No. 1 MAY 1953

WILLARD A. KREHL. Biography of James Lind with frontispiece ..... 3

O. NEAL MILLER. An unrecognized nutritional factor (cornstarch) required by the duck. Two figures ..... 13

W. J. VISEK, R. A. MONROE, E. W. SWANSON AND C. L. COMAR. Determination of endogenous fecal calcium in cattle by a simple isotope dilution method. One figure ..... 23

G. W. ANDERSON, S. J. SLINGER AND W. F. PEPPER. Bacterial cultures in the nutrition of poultry. I. Effect of dietary bacterial cultures on the growth and cecal flora of chicks ..... 35

G. W. ANDERSON, S. J. SLINGER, W. F. PEPPER AND M. M. HAUSER. Bacterial cultures in the nutrition of poultry. II. Effect of dietary coliform cultures on the growth and cecal flora of poults ..... 47

J. GANGULY, J. W. MEHL AND H. J. DEUEL, JR. Studies on carotenoid metabolism. XII. The effect of dietary carotenoids on the carotenoid distribution in the tissues of chickens ..... 59

J. GANGULY, J. W. MEHL AND H. J. DEUEL, JR. Studies on carotenoid metabolism. XIII. The carotenoid composition of the blood, liver and ovaries of the rat, ewe, cow and frog. One figure ..... 73

ELIZABETH CROFTS CALLISON, LOIS F. HALLMAN, WILLIAM F. MARTIN AND ELSA ORENT-KEILES WITH THE TECHNICAL ASSISTANCE OF EMILY S. CONWAY AND ELSIE CRUMP. Comparison of chemical analysis and bioassay as measures of vitamin A value: yellow corn meal. One figure ..... 85

H. E. SAUBERLICH. Studies on the reversal of aminopterin toxicity in the rat with citrovorum factor, folacin and related compounds ..... 101

DAVID K. BOSSHARDT AND JESSE W. HUFF. Nutritional deficiencies in mice caused by stress agents ..... 117

TEH-CHENG HUANG AND CLIVE M. MCCAY. The effect of terramycin on the growth and body composition of pigs ..... 129

A. LEONARD SHEFFNER AND OLAF BERGEIM. The effect of dietary amino acid levels upon the oxidation of L- and D-amino acids by kidney tissue ..... 141

## No. 2 JUNE 1953

JENÖ KRAMÁR AND VICTOR E. LEVINE. Influence of fats and fatty acids on the capillaries. Four figures ..... 149

R. Q. THOMPSON AND N. B. GUERRANT. Effect of dietary protein and vitamin $B_6$ on hepatic thionase activity. Four figures ..... 161

JOAN W. HEBERT AND AGNES FAY MORGAN. The influence of alpha-tocopherol upon the utilization of carotene and vitamin A. Two figures ..... 175

D. W. PETERSON, E. A. SHNEOUR, N. F. PEEK AND H. W. GAFFEY. Dietary constituents affecting plasma and liver cholesterol in cholesterol-fed chicks ..... 191

EDWARD G. HIGH AND SHERMAN S. WILSON. Effects of vitamin $B_{12}$ on the utilization of carotene and vitamin A by the rat ..... 203

CALVIN A. LANG, DIRK M. GLEYSTEEN AND BACON F. CHOW. The disappearance of radioactivity from the tissues of rats of different ages after subcutaneous administration of radiovitamin $B_{12}$ ..... 213

VIRGINIA A. BEAL. Nutritional intake of children. I. Calories, carbohydrate, fat and protein. Two figures ..... 223

BARNETT SURE. Improving the nutritive value of cereal grains. I. Improvement in the efficiency of the proteins in milled wheat flour with lysine, valine, threonine and an extract from condensed fish solubles ..... 235

K. GUGGENHEIM, S. HALEVY, I. HARTMANN AND R. ZAMIR. The effect of antibiotics on the metabolism of certain B vitamins ..... 245

J. E. ROMBOUTS. The destruction of B vitamins by certain salt mixtures in purified rations. Three figures ..... 255

WINFREY WYNN, JOHN HALDI, JAMES H. SHAW AND REIDAR F. SOGNNAES. Difference in the caries-producing effects of two purified diets containing the same amount of sugar. Two figures ..... 267

LOUISE J. DANIEL, MARGARET GARDINER AND L. J. OTTEY. Effect of vitamin $B_{12}$ in the diet of the rat on the vitamin $B_{12}$ contents of milk and livers of young ..... 275

R. J. YOUNG, M. B. GILLIS AND L. C. NORRIS. An unidentified factor in peanut meal required by the chick. One figure ..... 291

## No. 3 JULY 1953

B. H. ERSHOFF, R. B. ALFIN SLATER AND J. G. GAINES. Effects of pantothenic acid deficiency on pituitary-adrenal function in the rat ..... 299

C. H. BURNS, W. W. CRAVENS AND P. H. PHILLIPS. The sodium and potassium requirements of the chick and their interrelationship. Three figures .... 317

J. V. HALICK, B. L. REID, C. L. BROWN AND J. R. COUCH. The vitamin $B_{12}$ content of egg yolks as influenced by oral and parenteral administration of the vitamin. Two figures ..... 331

DONALD M. WATKIN, CALVIN A. LANG, BACON F. CHOW AND NATHAN W. SHOCK. Agewise differences in the urinary excretion of vitamin $B_{12}$ following intramuscular administration. One figure ..... 341

LAWRENCE J. SCHROEDER, MICHAEL IACOBELLIS, HELEN LEES AND ARTHUR H. SMITH. The effect of heat on the nutritive value of milk proteins as influenced by water and fat. Five figures ..... 351

E. L. HOVE. The relation of pyridine toxicity in rats to dietary vitamin E. Two figures ..... 361

MARY BROWN PATTON AND EVA DONELSON WILSON AND JANE M. LEICHSENRING, LOANA M. NORRIS AND CHARLOTTE M. DIENHART. The relation of calcium-to-phosphorus ratio to the utilization of these minerals by 18 young college women ..... 373

A. E. HARPER, W. J. MONSON, D. A. BENTON AND C. A. ELVEHJEM. The influence of protein and certain amino acids, particularly threonine, on the deposition of fat in the liver of the rat ..... 383

## No. 4 AUGUST 1953

MAXWELL M. WINTROBE, GEORGE E. CARTWRIGHT AND CLARK J. GUBLER. Studies on the function and metabolism of copper. Ten figures ..... 395

SAMUEL M. GREENBERG AND A. C. FRAZER WITH THE TECHNICAL ASSISTANCE OF B. ROBERTS. Some factors affecting the growth and development of rats fed rancid fat ..... 421

PAUL E. WAIBEL, W. W. CRAVENS AND C. A. BAUMANN. Effect of dietary antibiotics on the growth of chicks receiving suboptimum amounts of thiamine by mouth or by injection ..... 441

ELWOOD F. REBER, C. K. WHITEHAIR AND ROBERT MACVICAR. The effect of level of protein fed baby pigs ..... 451

C. L. COMAR, R. A. MONROE, W. J. VISEK AND SAM L. HANSARD. Comparison of two isotope methods for determination of endogenous fecal calcium. Two figures ..... 459

R. C. EGGERT, M. J. BRINEGAR AND C. R. ANDERSON. Delayed protein supplementation of corn diets for growing swine ..... 469

KENNETH WERTMAN, ROBERT ROTUNDO AND ROBERT YEE. Blood and bone marrow study of vitamin-deficient rats ..... 479

RUTH RENNER, D. R. CLANDININ, A. B. NORRISON AND A. R. ROBBLEE. The effects of processing temperatures on the amino acid content of sunflower seed oil meal ..... 487

# INDEX

ADRENAL-pituitary function in rat, effects of pantothenic acid deficiency on, 299.
Agents, stress (see Stress agents).
Ages, rats of different, disappearance of radioactivity from tissues of, after subcutaneous administration of radiovitamin $B_{12}$, 213.
Agewise differences in urinary excretion of vitamin $B_{12}$ following intramuscular administration, 341.
Alpha-tocopherol (see Tocopherol, alpha-).
Amino acid(s), certain, particularly threonine, influence on deposition of fat in liver of rat, 383.
—— content of sunflower seed oil meal, effects of processing temperatures on, 487.
—— (L- and D-), effect of dietary amino acid levels upon oxidation of, by kidney tissue, 141.
—— levels, effect of dietary, upon oxidation of L- and D-amino acids by kidney tissue, 141.
Aminopterin toxicity in rat, reversal with citrovorum factor, folacin and related compounds, 101.
ANDERSON, C. R. See Eggert, R. G., 469.
ANDERSON, G. W., S. J. SLINGER AND W. F. PEPPER. Bacterial cultures in the nutrition of poultry. I. Effect of dietary bacterial cultures on the growth and cecal flora of chicks, 35.
—— —— AND M. M. HAUSER. Bacterial cultures in the nutrition of poultry. II. Effect of dietary coliform cultures on the growth and cecal flora of poults, 47.
Antibiotics, effect of dietary, on growth of chicks receiving suboptimum amounts of thiamine by mouth or by injection, 441.
—— on metabolism of certain B vitamins, 245.

B vitamins (see Vitamins, B).
Baby pigs (see Pigs, baby).
Bacterial cultures, effect of dietary, on growth and cecal flora of chicks, 35.
—— in nutrition of poultry. I. Effect of dietary bacterial culture on growth and cecal flora of chicks, 35; II. Effect of dietary bacterial culturees on growth and cecal flora of poults, 47.
BAUMANN, C. A. See Waibel, P. E., 441.
BEAL, V. A. Nutritional intake of children. I. Calories, carbohydrate, fat and protein, 223.
BENTON, D. A. See Harper, A. E., 383.
BERGEIM, O. See Sheffner, A. L., 141.
Bioassay and chemical analysis, comparison of, as measures of vitamin A value: yellow corn meal, 85.
Blood and bone marrow study of vitamin-deficient rats, 479.
— of rat, ewe, cow and frog, carotenoid composition of, 73.
Body composition of pigs, effect of terramycin on, 129.
Bone marrow and blood study of vitamin-deficient rats, 479.
BOSSHARDT, D. K., AND J. W. HUFF. Nutritional deficiencies in mice caused by stress agents, 117.
BRINEGAR, M. J. See Eggert, R. G., 469.
BROWN, C. L. See Halick, J. V., 331.
BURNS, C. H., W. W. CRAVENS AND P. H. PHILLIPS. The sodium and potassium requirements of the chick and their interrelationship, 317.

CALCIUM and phosphorus, relation of calcium-to-phosphorus ratio to utilization of, by 18 young college women, 373.
— endogenous fecal, comparison of two isotope methods for determination of, 459.
—— —— determination in cattle by a simple isotope dilution method, 23.
— to-phosphorus ratio, relation to utilization of these minerals by 18 young college women, 373.
CALLISON, E. C., L. F. HALLMAN, W. F. MARTIN AND E. ORENT-KEILES. Comparison of chemical analysis and bioassay as measures of vitamin A value: yellow corn meal, 85.
Calories. Nutritional intake of children. I., 223.
Capillaries, influence of fats and fatty acids on, 149.
Carbohydrate. Nutritional intake of children. I., 223.
Caries-producing effects of two purified diets containing the same amount of sugar, difference in, 267.
Carotene, effects of vitamin $B_{12}$ on utilization by rat, 203.
— influence of alpha-tocopherol upon utilization of, 175.
Carotenoid(s) composition of blood, liver and ovaries of rat, ewe, cow and frog, 73.
— distribution in tissues of chickens, effect of dietary carotenoids on, 59.
— effect of dietary, on carotenoid distribution in tissues of chickens, 59.
— metabolism (see Metabolism).
CARTWRIGHT, G. E. See Wintrobe, M. M., 395.
Cattle, determination of endogenous fecal calcium in, by a simple isotope dilution method, 23.
Cecal flora of chicks, effect of dietary bacterial cultures on, 35.
—— of poults, effect of dietary coliform cultures on, 47.
Cereal grains, improving nutritive value of. I., 235.
Chemical analysis and bioassay, comparison of, as measures of vitamin A value: yellow corn meal, 85.
Chick(s), cholesterol-fed, dietary constituents affecting plasma and liver cholesterol in, 191.
— effect of dietary bacterial cultures on growth and cecal flora of, 35.

Chick(s) receiving suboptimum amounts of thiamine by mouth or by injection, effect of dietary antibiotics on growth of, 441.
— sodium and potassium requirements of, and their interrelationship, 317.
— unidentified factor in peanut meal required by, 291.
Chickens, effect of dietary carotenoids on carotenoid distribution in tissues of, 59.
Children, nutritional intake of. I., 223.
Cholesterol (plasma and liver) in cholesterol-fed chicks, dietary constituents affecting, 191.
Cholesterol-fed chicks, dietary constituents affecting plasma and liver cholesterol in, 191.
CHOW, B. F. See Lang, C. A., 213; Watkin, D. M., 341.
Citrovorum factor, reversal of aminopterin toxicity in rat with, 101.
CLANDININ, D. R. See Renner, R., 487.
Coliform cultures, effect of dietary, on growth and cecal flora of poults, 47.
College women (see Women).
COMAR, C. L., R. A. MONROE, W. J. VISEK AND S. L. HANSARD. Comparison of two isotope methods for determination of endogenous fecal calcium, 459.
— See Visek, W. J., 23.
Comparison of chemical analysis and bioassay as measures of vitamin A value: yellow corn meal, 85.
Condensed fish solubles, improvement in efficiency of proteins in milled wheat flour with an extract from, 235.
CONWAY, E. S. See Callison, E. C., 85.
Copper, function and metabolism of, 395.
Corn diets for growing swine, delayed protein supplementation of, 469.
— meal, yellow. Comparison of chemical analysis and bioassay as measures of vitamin A value, 85.
Cornstarch, unrecognized nutritional factor required by duck, 13.
Couch, J. R. See Halick, J. V., 331.
Cow, carotenoid composition of blood, liver and ovaries of, 73.
CRAVENS, W. W. See Burns, C. H., 317; Waibel, P. E., 441.
CRUDUP, M. See Sure, B., 235.
CRUMP, E. J. See Callison, E. C., 85.
Cultures, bacterial, in nutrition of poultry. I., 35; II., 47.
— effect of dietary bacterial, on growth and cecal flora of chicks, 35.
— — — — coliform, on growth and cecal flora of poults, 47.

DANIEL, L. J., M. GARDINER AND L. J. OTTEY. Effect of vitamin $B_{12}$ in the diet of the rat on the vitamin $B_{12}$ contents of milk and livers of young, 275.
Destruction of B vitamins by certain salt mixtures in purified rations, 255.
DEUEL, H. J., JR. See Ganguly, J., 59, 73.
Development and growth of rats fed rancid fat, some factors affecting, 421.
DIENHART, C. M. See Patton, M. B., 373.
Diet(s), corn, for growing swine, delayed protein supplementation of, 469.
— of rat, effect of vitamin $B_{12}$ in, on vitamin $B_{12}$ contents of milk and livers of young, 275.
— two purified, containing the same amount of sugar, difference in caries-producing effects of, 267.
Dietary amino acid levels, effect upon oxidation of L- and D-amino acids by kidney tissue, 141.
— antibiotics, effect on growth of chicks receiving suboptimum amounts of thiamine by mouth or by injection, 441.
— bacterial cultures, effect on growth and cecal flora of chicks, 35.
— carotenoids, effect on carotenoid distribution in tissues of chickens, 59.
— coliform cultures, effect on growth and cecal flora of poults, 47.
— constituents affecting plasma and liver cholesterol in cholesterol-fed chicks, 191.
— protein and vitamin $B_6$, effect on hepatic thionase activity, 161.
— vitamin E, relation of pyridine toxicity in rats to, 361.
Differences, agewise, in urinary excretion of vitamin $B_{12}$ following intramuscular administration, 341.
Dilution method (simple isotope), determination of endogenous fecal calcium in cattle by a, 23.
DOWELL, J. See Sure, B., 235.
Duck, unrecognized nutritional factor (cornstarch) required by, 13.

EASTERLING, L. See Sure, B., 235.
Egg yolks, vitamin $B_{12}$ content as influenced by oral and parenteral administration of the vitamin, 331.
EGGERT, R. G., M. J. BRINEGAR AND C. R. ANDERSON. Delayed protein supplementation of corn diets for growing swine, 469.
ELVEHJEM, C. A. See Harper, A. E., 383.
Endogenous fecal calcium, comparison of two isotope methods for determination of, 459.
— — — determination in cattle by a simple isotope dilution method, 23.
ERSHOFF, B. H., R. B. A. SLATER AND J. G. GAINES. Effects of pantothenic acid deficiency on pituitary-adrenal function in the rat, 299.
Ewe, carotenoid composition of blood, liver and ovaries of, 73.
Excretion, urinary (see Urinary excretion).
Extract from condensed fish solubles, improvement in efficiency of proteins in milled wheat flour with an, 235.

FACTOR in peanut meal, unidentified, required by chick, 291.
Fat(s) and fatty acids, influence on capillaries, 149.
— and water, effect of heat on nutritive value of milk proteins as influenced by, 351.
— influence of protein and certain amino acids, particularly threonine, on deposition of, in liver of rat, 383.
— Nutritional intake of children. I., 223.
— rancid, some factors affecting the growth and development of rats fed, 421.
Fatty acids and fats, influence on capillaries, 149.
Fecal calcium, endogenous, comparison of two isotope methods for determination of, 459.
— — — determination in cattle by a simple isotope dilution method, 23.
Fish solubles, condensed, improvement in efficiency of proteins in milled wheat flour with an extract from, 235.
Flora, cecal, of chicks, effect of dietary bacterial cultures on, 35.
— — of poults, effect of dietary coliform cultures on, 47.

Flour, milled wheat, improvement in efficiency of proteins in, with lysine, valine, threonine and an extract from condensed fish solubles, 235.
Folacin and related compounds, reversal of aminopterin toxicity in rat with, 101.
FRAZER, A. C. See Greenberg, S. M., 421.
Frog, carotenoid composition of blood, liver and ovaries of, 73.
Function and metabolism of copper, 395.

GAFFEY, H. W. See Peterson, D. W., 191.
GAINES, J. G. See Ershoff, B. H., 299.
GANGULY, J., J. W. MEHL AND H. J. DEUEL, JR. Studies on carotenoid metabolism. XII. The effect of dietary carotenoids on the carotenoid distribution in the tissues of chickens, 59; XIII. The carotenoid composition of the blood, liver and ovaries of the rat, ewe, cow and frog, 73.
GARDINER, M. See Daniel, L. J., 275.
GILLIS, M. B. See Young, R. J., 291.
GLEYSTEEN, D. M. See Lang, C. A., 213.
Grains, cereal, improving nutritive value of. I., 235.
GREENBERG, S. M., AND A. C. FRAZER. Some factors affecting the growth and development of rats fed rancid fat, 421.
Growing swine, delayed protein supplementation of corn diets for, 469.
Growth and development of rats fed rancid fat, some factors affecting, 421.
— of chicks, effect of dietary bacterial cultures on, 35.
— — — receiving suboptimum amounts of thiamine by mouth or by injection, effect of dietary antibiotics on, 441.
— of pigs, effect of terramycin on, 129.
— of poults, effect of dietary coliform cultures on, 47.
GUBLER, C. J. See Wintrobe, M. M., 395.
GUERRANT, N. B. See Thompson, R. Q., 161.
GUGGENHEIM, K., S. HALEVY, I. HARTMANN AND R. ZAMIR. The effect of antibiotics on the metabolism of certain B vitamins, 245.

HALDI, J. See Wynn, W., 267.
HALEVY, S. See Guggenheim, K., 245.
HALICK, J. V., B. L. REID, C. L. BROWN AND J. R. COUCH. The vitamin $B_{12}$ content of egg yolks as influenced by oral and parenteral administration of the vitamin, 331.
HALLMAN, L. F. See Callison, E. C., 85.
HANSARD, S. L. See Comar, C. L., 459.
HARPER, A. E., W. J. MONSON, D. A. BENTON AND C. A. ELVEHJEM. The influence of protein and certain amino acids, particularly threonine, on the deposition of fat in the liver of the rat, 383.
HARTMANN, I. See Guggenheim, K., 245.
HAUSER, M. M. See Anderson, G. W., 47.
Heat, effect on nutritive value of milk proteins as influenced by water and fat, 351.
HEBERT, J. W., AND A. F. MORGAN. The influence of alpha-tocopherol upon the utilization of carotene and vitamin A, 175.
Hepatic thionase activity, effect of dietary protein and vitamin $B_6$ on, 161.
HIGH, E. G., AND S. S. WILSON. Effects of vitamin $B_{12}$ on the utilization of carotene and vitamin A by the rat, 203.
HOVE, E. L. The relation of pyridine toxicity in rats to dietary vitamin E, 361.
HUANG, T., AND C. M. MCCAY. The effect of terramycin on the growth and body composition of pigs, 129.
HUFF, J. W. See Bosshardt, D. K., 117.

IACOBELLIS, M. See Schroeder, L. J., 351.
Interrelationship of sodium and potassium requirements of chick, 317.
Intramuscular administration, agewise differences in urinary excretion of vitamin $B_{12}$ following, 341.
Isotope dilution method, simple, determination of endogenous fecal calcium in cattle by a, 23.
— methods for determination of endogenous fecal calcium, comparison of two, 459.

KIDNEY tissue, effect of dietary amino acid levels upon oxidation of L- and D-amino acids by, 141.
KRAMÁR, J., AND V. E. LEVINE. Influence of fats and fatty acids on the capillaries, 149.
KREHL, W. A. James Lind, M.D. (October 4, 1716–July 18, 1794), 3.

LANG, C. A., D. M. GLEYSTEEN AND B. F. CHOW. The disappearance of radioactivity from the tissues of rats of different ages after subcutaneous administration of radiovitamin $B_{12}$, 213.
— See Watkin, D. M., 341.
LEES, H. See Schroeder, L. J., 351.
LEICHSENRING, J. M. See Patton, M. B., 373.
Level of protein fed baby pigs, effect of, 451.
LEVINE, V. E. See Kramár, J., 149.
LIND, JAMES, M.D. (October 4, 1716–July 18, 1794), 3.
Liver(s) and milk of young, effect of vitamin $B_{12}$ in diet of rat on vitamin $B_{12}$ contents of, 275.
— and plasma cholesterol in cholesterol-fed chicks, dietary constituents affecting, 191.
— of rat, ewe, cow and frog, carotenoid composition of, 73.
— — — influence of protein and certain amino acids, particularly threonine, on deposition of fat in, 383.
Lysine, improvement in efficiency of proteins in milled wheat flour with, 235.

MACVICAR, R. See Reber, E. F., 451.
Marrow, bone (see Bone marrow).
MARTIN, W. F. See Callison, E. C., 85.
MCCAY, C. M. See Huang, T., 129.
Meal, corn (see Corn meal).
MEHL, J. W. See Ganguly, J., 59, 73.
Metabolism and function of copper, 395.
— carotenoid, studies on. XII. Effect of dietary carotenoids on carotenoid distribution in tissues of chickens, 59; XIII. Carotenoid composition of blood, liver and ovaries of rat, ewe, cow and frog, 73.
— of certain B vitamins, effect of antibiotics on, 245.
Method(s), isotope, for determination of endogenous fecal calcium, comparison of two, 459.
— simple isotope dilution, determination of endogenous fecal calcium in cattle by a, 23.
Mice, nutritional deficiencies in, caused by stress agents, 117.

Milk and livers of young, effect of vitamin $B_{12}$ in diet of rat on vitamin $B_{12}$ contents of, 275.
— proteins, effect of heat on nutritive value of, as influenced by water and fat, 351.
Milled wheat flour (see Flour).
MILLER, O. N. An unrecognized nutritional factor (cornstarch) required by the duck, 13.
MONROE, R. A. See Comar, C. L., 459; Visek, W. J., 23.
MONSON, W. J. See Harper, A. E., 383.
MORGAN, A. F. See Hebert, J. W., 175.
MORRISON, A. B. See Renner, R., 487.

NORRIS, LEO C. See Young, R. J., 291.
NORRIS, LOANA M. See Patton, M. B., 373.
Nutrition of poultry, bacterial cultures in. I., 35; II., 47.
Nutritional deficiencies in mice caused by stress agents, 117.
— factor, unrecognized (cornstarch), required by duck, 13.
— intake of children. I. Calories, carbohydrate, fat and protein, 223.
Nutritive value of cereal grains, improving the. I. Improvement in efficiency of proteins in milled wheat flour with lysine, valine, threonine and an extract from condensed fish solubles, 235.
— — of milk proteins, effect of heat on, as influenced by water and fat, 351.

OIL meal, sunflower seed, effects of processing temperatures on amino acid content of, 487.
Oral and parenteral administration of vitamin $B_{12}$, $B_{12}$ content of egg yolks as influenced by, 331.
ORENT-KEILES, E. See Callison, E. C., 85.
OTTEY, L. J. See Daniel, L. J., 275.
Ovaries of rat, ewe, cow and frog, carotenoid composition of, 73.
Oxidation of L- and D-amino acids by kidney tissue, effect of dietary amino acid levels upon, 141.

PANTOTHENIC acid deficiency, effects on pituitary-adrenal function in rat, 299.
Parenteral and oral administration of vitamin $B_{12}$, $B_{12}$ content of egg yolks as influenced by, 331.
PATTON, M. B., E. D. WILSON, J. M. LEICHSENRING, L. M. NORRIS AND C. M. DIENHART. The relation of calcium-to-phosphorus ratio to the utilization of these minerals by 18 young college women, 373.
Peanut meal, unidentified factor in, required by chick, 291.
PEEK, N. F. See Peterson, D. W., 191.
PEPPER, W. F. See Anderson, G. W., 35, 47.
PETERSON, D. W., E. A. SHNEOUR, N. F. PEEK AND H. W. GAFFEY. Dietary constituents affecting plasma and liver cholesterol in cholesterol-fed chicks, 191.
PHILLIPS, P. H. See Burns, C. H., 317.
Phosphorus and calcium, relation of calcium-to-phosphorus ratio to utilization of, by 18 young college women, 373.
— to-calcium ratio, relation to utilization of these minerals by 18 young college women, 373.
Pigs, baby, effect of level of protein fed, 451.
— effect of terramycin on growth and body composition of, 129.
Pituitary-adrenal function in rat, effects of pantothenic acid deficiency on, 299.
Plasma and liver cholesterol in cholesterol-fed chicks, dietary constituents affecting, 191.
Potassium and sodium requirements of chick and their interrelationship, 317.
Poultry, bacterial cultures in nutrition of. I., 35; II., 47.
Poults, effect of dietary coliform cultures on growth and cecal flora of, 47.
Processing temperatures, effects on amino acid content of sunflower seed oil meal, 487.
Protein(s) and certain amino acids, particularly threonine, influence on deposition of fat in liver of rat, 383.
— dietary, and vitamin $B_6$, effect on hepatic thionase activity, 161.
— fed baby pigs, effect of level of, 451.
— in milled wheat flour, improvement in efficiency of, with lysine, valine, threonine and an extract from condensed fish solubles, 235.
— milk, effect of heat on nutritive value of, as influenced by water and fat, 351.
— Nutritional intake of children. I., 223.
— supplementation, delayed, of corn diets for growing swine, 469.
Purified diets, two, containing the same amount of sugar, difference in caries-producing effects of, 267.
— rations, destruction of B vitamins by certain salt mixtures in, 255.
Pyridine toxicity in rats, relation to dietary vitamin E, 361.

RADIOACTIVITY, disappearance from tissues of rats of different ages after subcutaneous administration of radiovitamin $B_{12}$, 213.
Radiovitamin $B_{12}$, disappearance of radioactivity from tissues of rats of different ages after subcutaneous administration of, 213.
Rancid fat, some factors affecting the growth and development of rats fed, 421.
Rat(s), carotenoid composition of blood, liver and ovaries of, 73.
— effect(s) of pantothenic acid deficiency on pituitary-adrenal function in, 299.
— — of vitamin $B_{12}$ in diet of, on vitamin $B_{12}$ contents of milk and livers of young, 275.
— — — — on utilization of carotene and vitamin A by, 203.
— fed rancid fat, some factors affecting the growth and development of, 421.
— influence of protein and certain amino acids, particularly threonine, on deposition of fat in liver of, 383.
— of different ages, disappearance of radioactivity from tissues of, after subcutaneous administration of radiovitamin $B_{12}$, 213.
— relation of pyridine toxicity in, to dietary vitamin E, 361.
— reversal of aminopterin toxicity in, with citrovorum factor, folacin and related compounds, 101.
— vitamin-deficient, blood and bone marrow study of, 479.
— young, effect of vitamin $B_{12}$ in diet of rat on vitamin $B_{12}$ contents of milk and livers of, 275.
Ratio, calcium-to-phosphorus, relation to utilization of these minerals by 18 young college women, 373.
Rations, purified, destruction of B vitamins by certain salt mixtures in, 255.
REBER, E. F., C. K. WHITEHAIR AND R. MACVICAR. The effect of level of protein fed baby pigs, 451.

Reid, B. L. See Halick, J. V., 331.
Renner, R., D. R. Clandinin, A. B. Morrison and A. R. Robblee. The effects of processing temperatures on the amino acid content of sunflower seed oil meal, 487.
Reversal of aminopterin toxicity in rat with citrovorum factor, folacin and related compounds, 101.
Robblee, A. R. See Renner, R., 487.
Roberts, B. See Greenberg, S. M., 421.
Rombouts, J. E. The destruction of B vitamins by certain salt mixtures in purified rations, 255.
Rotundo, R. See Wertman, K., 479.

Salt mixtures in purified rations, destruction of B vitamins by certain, 255.
Sauberlich, H. E. Studies on the reversal of aminopterin toxicity in the rat with citrovorum factor, folacin and related compounds, 101.
Schroeder, L. J., M. Iacobellis, H. Lees and A. H. Smith. The effect of heat on the nutritive value of milk proteins as influenced by water and fat, 351.
Seed, sunflower (see Sunflower seed).

Smith, A. H. See Schroeder, L. J., 351.
Sodium and potassium requirements of chick and their interrelationship, 317.
Sognnaes, R. F. See Wynn, W., 267.
Stress agents, nutritional deficiencies in mice caused by, 117.
Subcutaneous administration of radiovitamin $B_{12}$, disappearance of radioactivity from tissues of rats of different ages after, 213.
Sugar, difference in caries-producing effects of two purified diets containing the same amount of, 267.
Sunflower seed oil meal, effects of processing temperatures on amino acid content of, 487.
Sure, B. Improving the nutritive value of cereal grains. I. Improvement in the efficiency of the proteins in milled wheat flour with lysine, valine, threonine and an extract from condensed fish solubles, 235.
Swanson, E. W. See Visek, W. J., 23.
Swine, growing, delayed protein supplementation of corn diets for, 469.

Temperatures, processing, effects on amino acid content of sunflower seed oil meal, 487.
Terramycin, effect on growth and body composition of pigs, 129.
Thiamine, effect of dietary antibiotics on growth of chicks receiving suboptimum amounts of, by mouth or by injection, 441.
Thionase activity, hepatic, effect of dietary protein and vitamin $B_2$ on, 161.
Thompson, R. Q., and N. B. Guerrant. Effect of dietary protein and vitamin $B_2$ on hepatic thionase activity, 161.
Threonine, improvement in efficiency of proteins in milled wheat flour with, 235.
— influence on deposition of fat in liver of rat, 383.
Tissue(s), kidney, effect of dietary amino acid levels upon oxidation of L- and D-amino acids by, 141.
— of chickens, effect of dietary carotenoids on carotenoid distribution in, 59.
— of rats of different ages, disappearance of radioactivity from, after subcutaneous administration of radiovitamin $B_{12}$, 213.
Tocopherol (alpha-), influence upon utilization of carotene and vitamin A, 175.
Toxicity, aminopterin, in rat, reversal with citrovorum factor, folacin and related compounds, 101.
— pyridine, in rats, relation to dietary vitamin E, 361.

Unidentified factor in peanut meal required by chick, 291.
Urinary excretion of vitamin $B_{12}$ following intramuscular administration, agewise differences in, 341.

Valine, improvement in efficiency of proteins in milled wheat flour with, 235.
Visek, W. J., R. A. Monroe, E. W. Swanson and C. L. Comar. Determination of endogenous fecal calcium in cattle by a simple isotope dilution method, 23.
— See Comar, C. L., 459.
Vitamin(s) A, effects of vitamin $B_{12}$ on utilization by rat, 203.
—— influence of alpha-tocopherol upon utilization of, 175.
——— value, comparison of chemical analysis and bioassay as measures of: yellow corn meal, 85.
— B, destruction by certain salt mixtures in purified rations, 255.
—— effect of antibiotics on metabolism of certain, 245.
— $B_2$ and dietary protein, effect on hepatic thionase activity, 161.
— $B_{12}$, agewise differences in urinary excretion of, following intramuscular administration, 341.
—— content(s) of egg yolks as influenced by oral and parenteral administration, 331.
———— of milk and livers of young, effect of vitamin $B_{12}$ in diet of rat on, 275.
—— effect(s) in diet of rat on vitamin $B_{12}$ contents of milk and livers of young, 275.
———— utilization of carotene and vitamin A by rat, 203.
—— (radio-), disappearance of radioactivity from tissues of rats of different ages after subcutaneous administration of, 213.
— E, dietary, relation of pyridine toxicity in rats to, 361.
Vitamin-deficient rats, blood and bone marrow study of, 479.

Waibel, P. E., W. W. Cravens and C. A. Baumann. Effect of dietary antibiotics on the growth of chicks receiving suboptimum amounts of thiamine by mouth or by injection, 441.
Water and fat, effect of heat on nutritive value of milk proteins as influenced by, 351.
Watkin, D. M., C. A. Lang, B. F. Chow and N. W. Shock. Agewise differences in the urinary excretion of vitamin $B_{12}$ following intramuscular administration, 341.
